

GARAGE EQUIPMENT

Product Code: 2005T

Porta Power Kit

Safe Working Capacity: 10,000kg

This "Made for the Trade" Tradequip 10,000kg Hydraulic Auto Body Repair Kit is designed to be used for pushing, spreading, and pressing of vehicle body panels as well as various component parts and assemblies. The variety of attachments include a rubber head, flat base, wedge spreader, spreader toes and various extension tubes with a snap lock design for quick and easy assembly.

The pump has an automatic overload system to help prevent damage to the pump ram and associated equipment. The flex head features a permanently moulded rubber pad, interlocked to prevent separation. The complete kit includes a variety of specially designed auto body, frame repair and construction components for lifting, pushing, bending and spreading.

**MADE FOR THE
TRADE**
